--	---	---

The side project "big ball" wants to make big imbenge and wire spheres which are 2 meters in diameter, real big!

The title means also the big party, having a big ball, having a good time.

Some of them are fully spheres, some are cut in half so you can arrange and rearrange them in many ways for art events and art functions in a big scale.

They can be made completely out of thick wire ore combined with telephone wire.

They could be a very nice side project for the 2010 event.

Produktionsmanagment: Cornelia Weiblen-Albrecht, Schellingstr. 9, 80799 München,
Tel. (089) 28 19 99, Fax (089) 282241, Email: corneliaalbrecht@t-online.de
